Hamdan Ashfaq

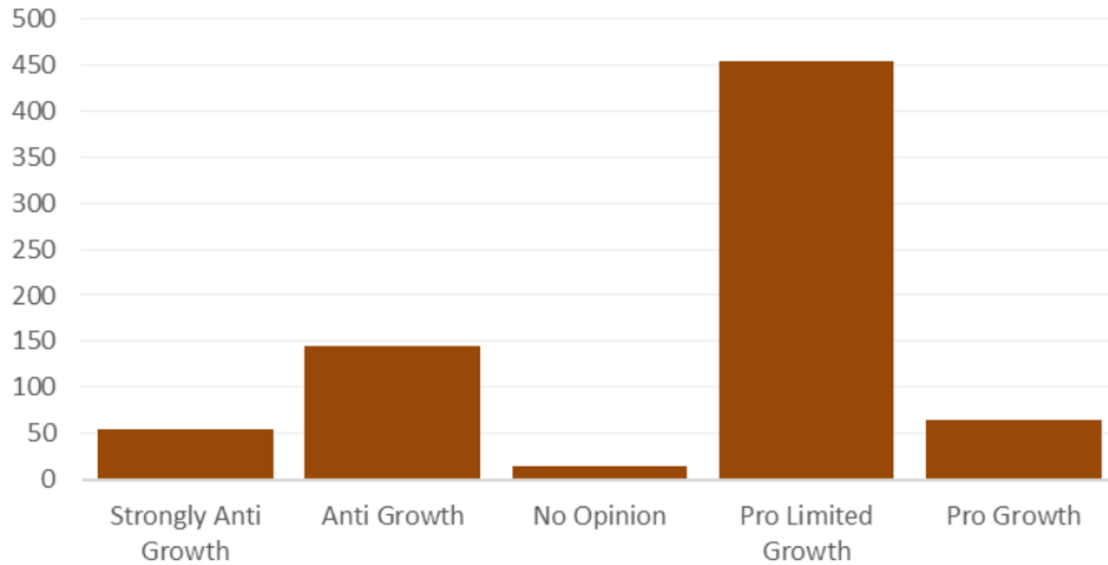

The graph describes residents' reasons for living in Etna Township.

- Top 2 Reasons
 - Rural Atmosphere
 - Lack of Congestion: Traffic
- Important because...
 - Helps assess where future opinions are originating from
 - Gives overview of public background
 - Establishes Township as attracting folks for Rural Residence.

The graph describes population distribution of Etna Township within the data.

Etna Township Residents Consider Themselves...

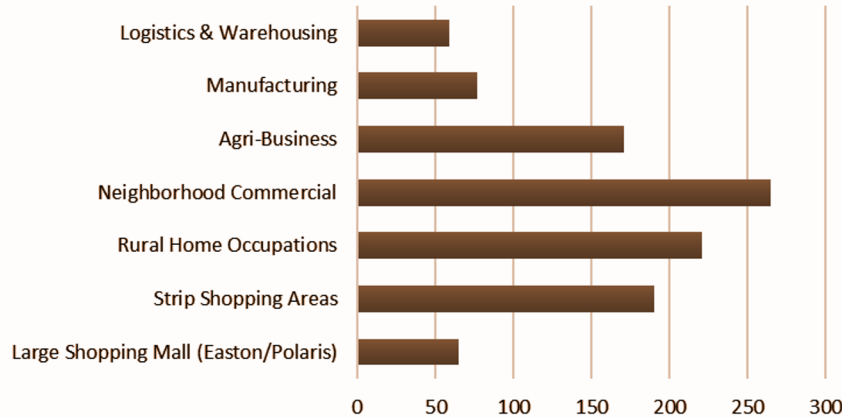

Pro Limited Growth has most votes

→ Residents are ready for changes to a certain extent
→ Mindset geared towards current preservation, not heavy industrialization
→ This prefaces attitudes residents have towards heavy manufacturing

The graph describes the level of Etna Township residents' growth mindset.

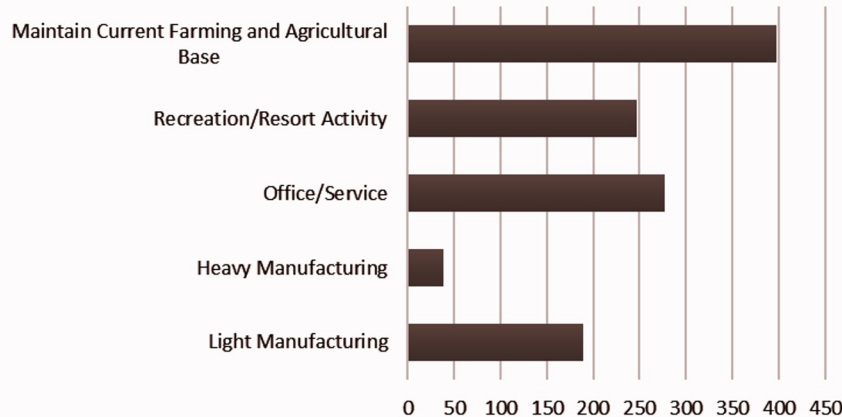

Job Creating Opportunities

This graph describes the job opportunities Etna Township residents want to see more

- Least supported:
 - Logistics & Warehouses
- Most supported:
 - Neighborhood Commercial

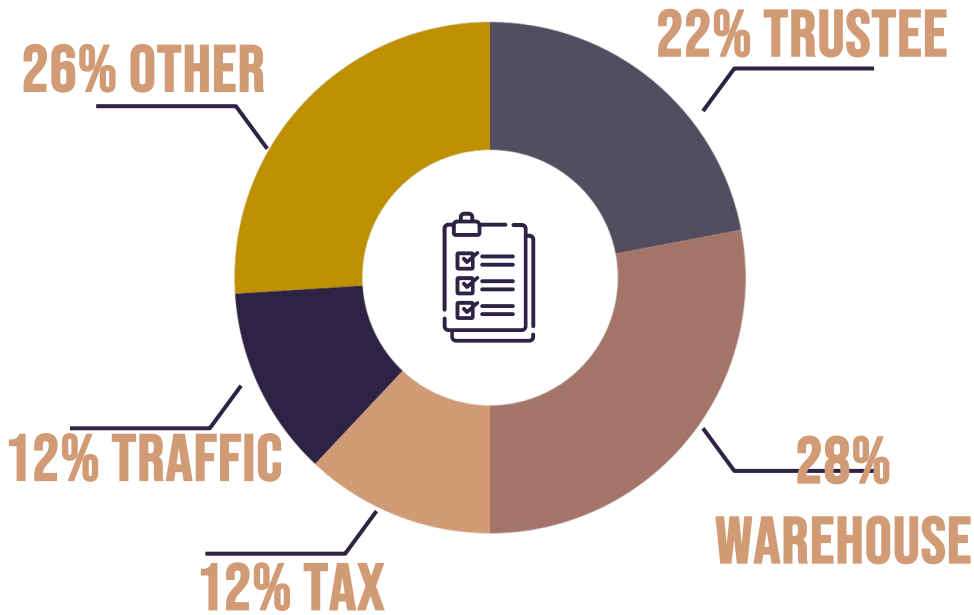

Opinions on Commercial Development

This graph describes the commercial development that Etna Township residents want to see more

- Least supported:
 - Heavy Manufacturing
- Most supported:
 - Maintain Current Farming and Agricultural Base

FINAL OBSERVATIONS

This is a pie chart of the most mentioned key words found in the free-response section at the end of the survey.

SUGGESTIONS

- Temporarily stop building warehouses and focus on assessing community zoning needs:
 - Why?
 - Residents are only ready for changes to a certain extent
 - There are demonstrated needs for other facilities
 - Warehouses increase traffic volume, changing landscape, and affecting the suburban atmosphere
 - How?
 - Invest in maintaining current farming and agricultural base instead
 - Develop neighborhood commercial job opportunities to replace employment warehouses
 - Take into account residents' opinion more in the future: revision of the Board of Trustees

Fin.
THANK YOU!
